

GEOVISIONS

# ENGINEERING INTERN AND TRAINEE

The BridgeUSA J1 Intern & Trainee program provides businesses with qualified international candidates eager to enhance their skills in their chosen field and train with some of the finest employers in the USA.

# PROGRAM DESCRIPTION

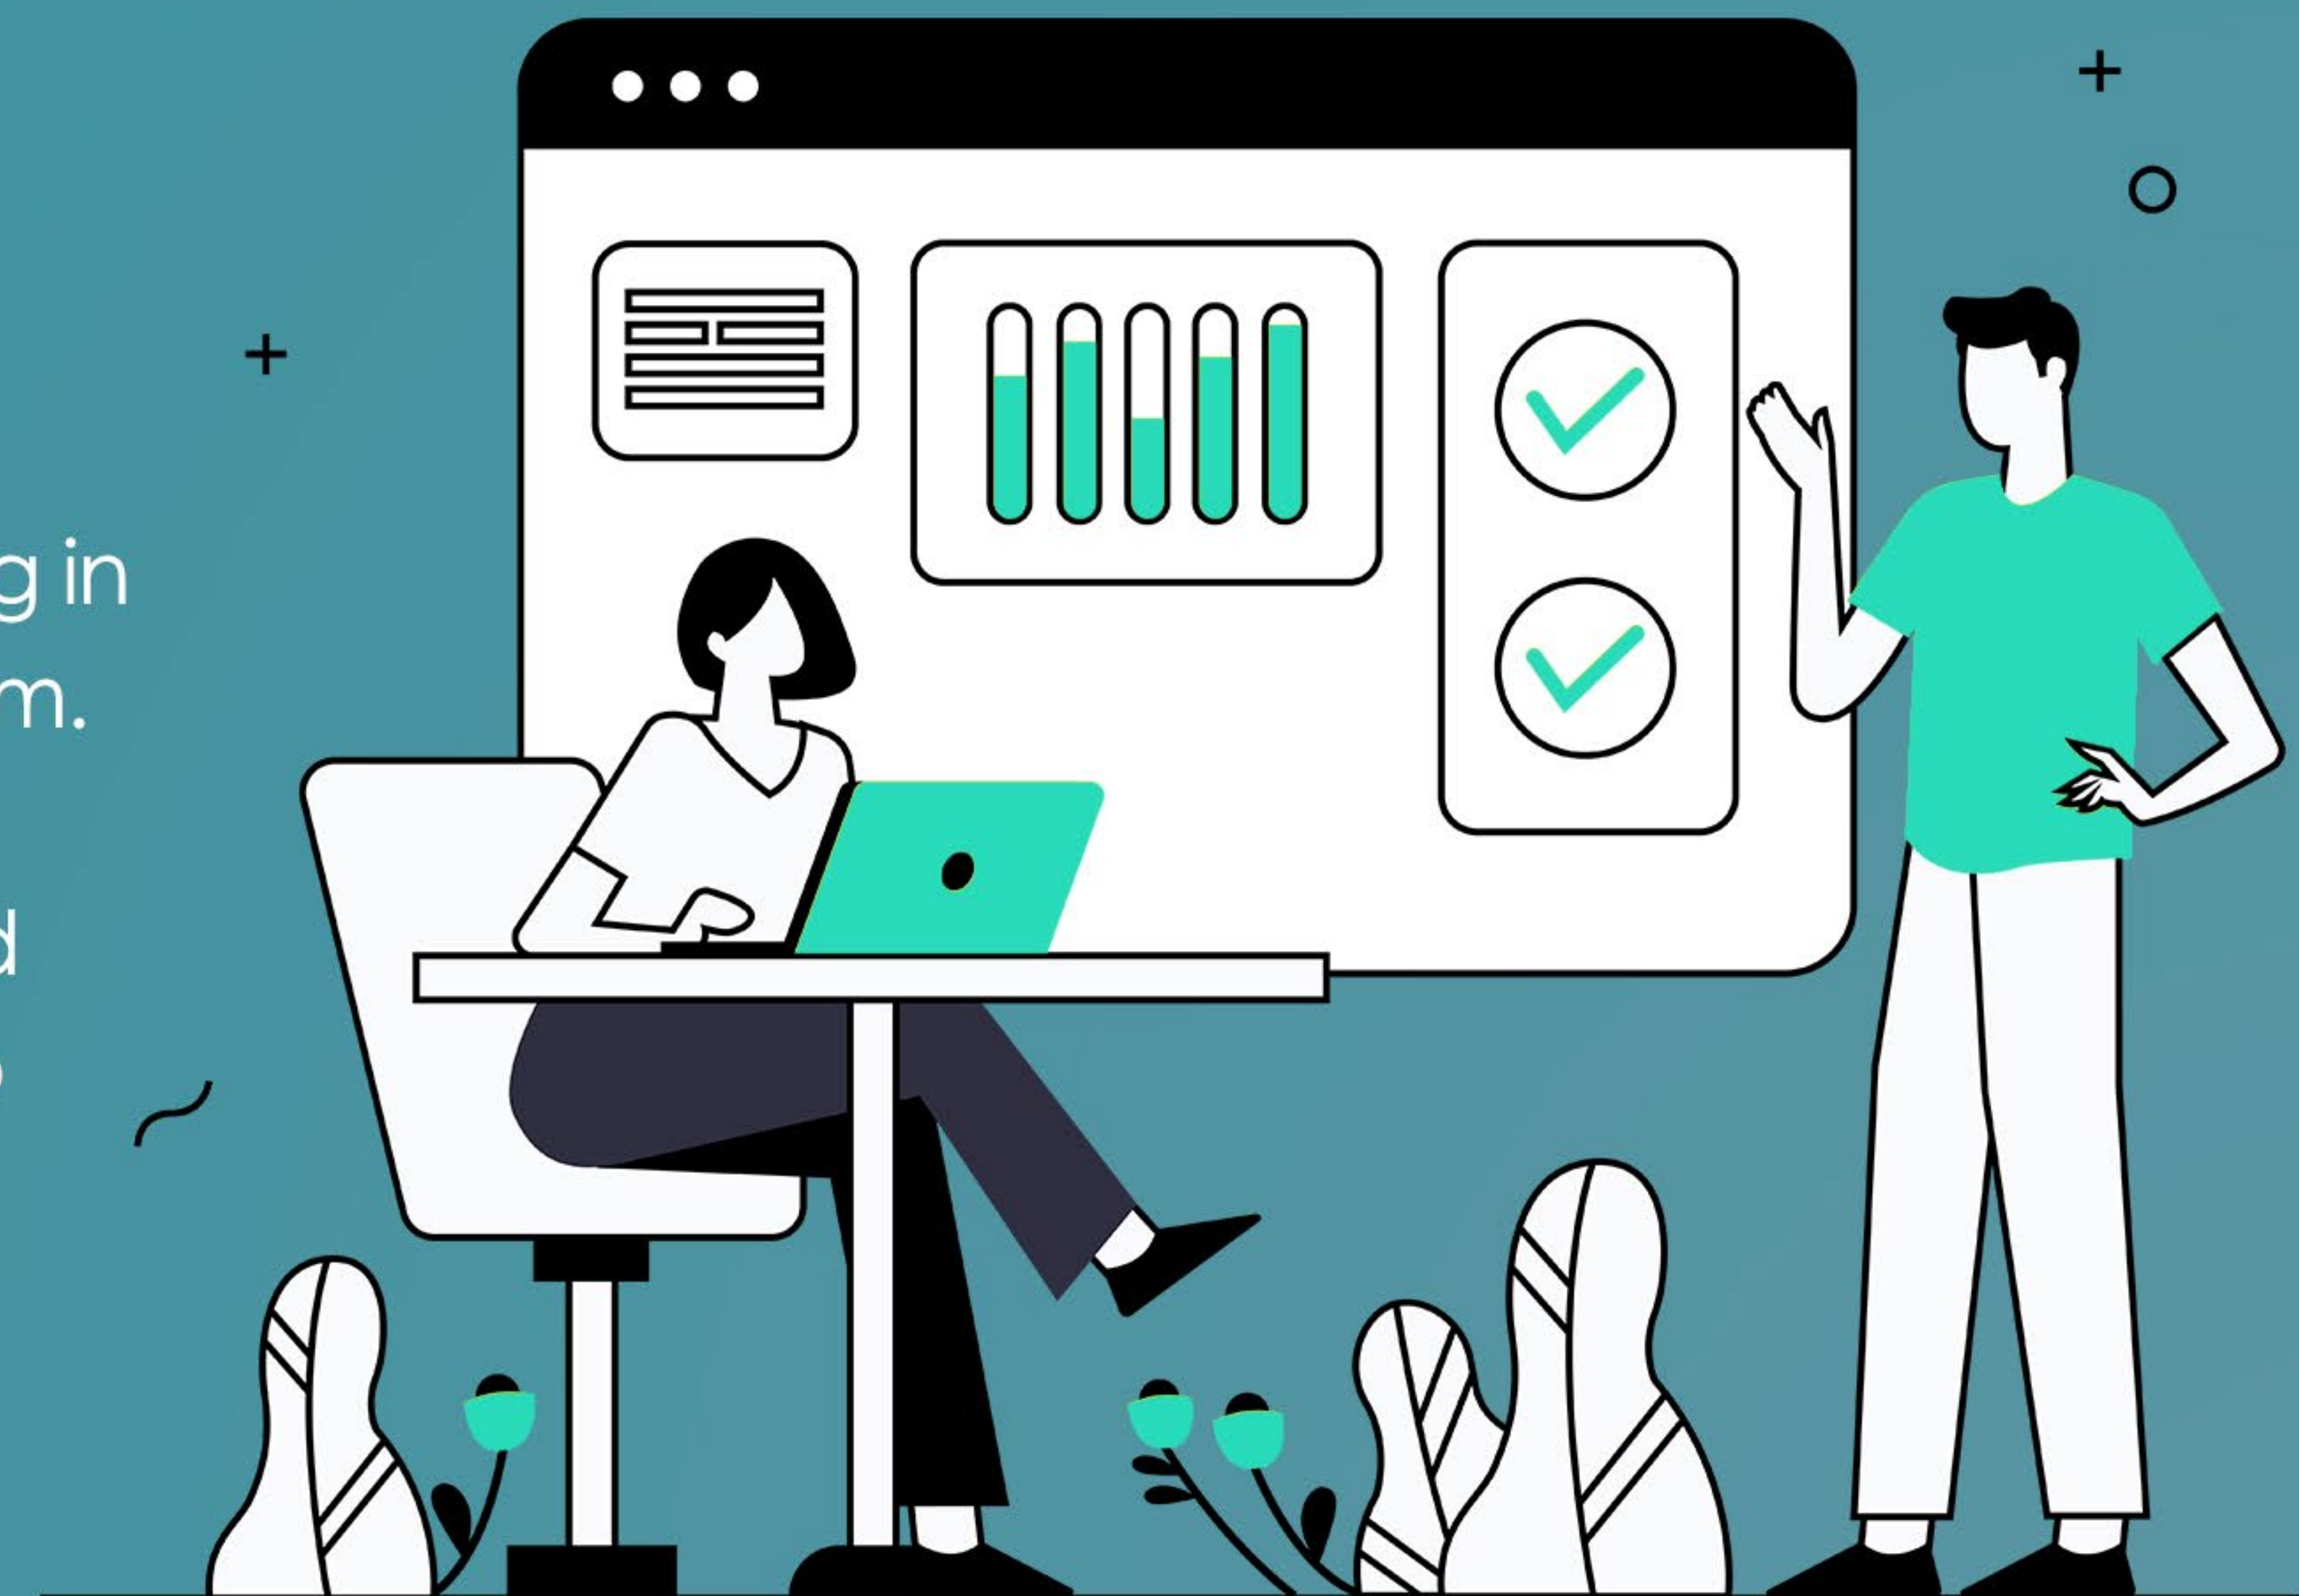

Familiar with OPT Programs? The Bridge USA J-1 Intern and Trainee program is extremely similar! Instead of applying through their school, they need a Department of State approved sponsor, such as GeoVisions, to sponsor them on the J-1 Intern or Trainee programs.

GeoVisions does all the recruitment and prescreening as well as handling the visa process, regulatory requirements, and support throughout the program.

# BENEFITS OF THE PROGRAM

- 1 GeoVisions recruits top early-career engineering professionals from around the world for your company and handles all of the visa, regulatory, and support matters throughout the participants' programs.
- 2 Be a part of life-changing career enhancement experiences for early career engineers.
- 3 Grow the reputation of your company by participating in a key U.S. Department of State soft diplomacy program.
- 4 Add valuable international perspectives from talented young professionals to your team while contributing to corporate DEI initiatives.
- 5 Further develop existing internship and/or OPT programs by expanding to a global talent pool.

# PROGRAM PURPOSE

---

Cultural exchange and Career Development program designed to enhance the skills and expertise in the participant's field of study and/or professional background

---

# GEOVISIONS' EXPERTISE

- 1 GeoVisions is one out of fewer than 100 Department of State-approved sponsors for the Bridge USA J-1 Intern and Trainee programs.
- 2 GeoVisions is focused on engineering interns and trainees, and is one of the only private sponsors participating in the Department of State's recent Early Career STEM Initiative.
- 3 GeoVisions has more than 25 years of experience and a recruitment network spanning more than 50 countries and relationships with hundreds of universities.
- 4 GeoVisions conducts extensive pre-screening to ensure that you only ever interview fully vetted and qualified candidates.
- 5 We provide 24-hour support to you and participants on program, ensuring safety, health, and welfare.
